<b>Bamboo</b>							
<i>Fargesia robusta</i>	Ivory Column	Bamboo	Full sun to part shade	Clumping spreading upright	Fast	15-20	Foliage is glossy and bright green. Culm sheaths are white. Canes are dark green and can reach .75 inches in diameter.
<i>Phyllostachys aurea</i>	Fishpole/Golden	Bamboo	Full sun to part shade	Rigidly spreading upright	Fast	15-30	Foliage is yellow to golden-green. Culms are green fading to yellow in the sun and can reach 1.25 inches in diameter. This variety is great for screens or fences.
<i>Phyllostachys bambusoides</i>	Japanese Timber/Giant Timber	Bamboo	Full sun to part shade	Spreading upright	Fast	50-72	Foliage is medium green. Culms are bright green and can reach from 4 to 6 inches in diameter. This variety is used for building. It is also used to make a traditional Japanese flute called the Shakuhachi.
<i>Phyllostachys nigra</i>	Black	Bamboo	Full sun to part shade	Spreading upright	Fast	20-35	Foliage is slender, feathery and light green. Culms are black and can reach 2.25 inches in diameter. This is an exotic, rare variety.
<i>Phyllostachys vivax</i>	Chinese Timber	Bamboo	Full sun to part shade	Spreading upright	Fast	40-70	Foliage is dark green. Culms are yellow-green and can reach from 3 to 4 inches in diameter. Shoots from this bamboo are prolific in spring and good for eating.
<i>Semiarundinaria fastuosa</i>	Temple/Japanese Palm	Bamboo	Full sun to part shade	Narrow fast spreading upright	Fast	25-35	Foliage is dense, large and a bright glossy green. Culms are green turning burgundy in fall, and can reach 1.5 inches in diameter.
<b>Broadleaf Deciduous Fruit Shrubs</b>							
<i>Chaenomeles japonica</i>	Toyo nishiki	Japanese Quince	Full sun	Spreading upright	Medium	8 x 6-8	Soft pink showy flowers precede edible, but bitter fruit that must be cooked before eating. It is also used for its medicinal properties and is ideal for bonsai. Self-fertile.
<i>Rubus idaeus</i>	Heritage	Ever-bearing Red Raspberry	Full sun to part shade	Upright	Fast	4-5 x 1-2	White flowers precede sweet red summer and fall fruit. Self-fertile. Does not require staking.
<i>Vaccinium corymbosum</i>	Blueray	Highbush Blueberry	Full sun to part shade	Rounded upright	Medium	4-6 x 4-6	White flowers precede July to August fruit, burgundy fall foliage and red winter stems. Self-fertile but does better when cross-pollinated with another variety.
<i>Vaccinium corymbosum</i>	Chandler	Northern Highbush Blueberry	Full sun to part shade	Spreading upright	Medium	6 x 6	Known as the world's largest blueberry, white flowers precede mid to late-season fruit and orange to burgundy fall foliage. Self-fertile but does better when cross-pollinated with another variety.
<i>Vaccinium corymbosum</i>	Spartan	Northern Highbush Blueberry	Full sun to part shade	Upright	Medium	4-6 x 4-6	White flowers precede large robust early-season fruit. Glossy green foliage turns yellow and orange in fall. Self-fertile but does better when cross-pollinated with another variety.
<i>Vaccinium x</i>	Sunshine Blue	Southern Highbush Blueberry	Full sun to part shade	Rounded semi-dwarf upright	Medium	3-4 x 3-4	White to pink flowers precede mid to late-season fruit. Foliage is blue-green year-round. Self-fertile but does better when cross-pollinated with another variety.
<b>Broadleaf Deciduous Fruit Trees</b>							
<i>Amelanchier x grandiflora</i>	Autumn Brilliance®	Apple Serviceberry	Full sun to part shade	Multi-branched rounded upright	Medium	20-25 x 20-25	Fragrant white flowers precede edible purple fruit commonly used in preserves. Fall colors are orange and red. Self-fertile,
<i>Cornus mas</i>		Cornelian Cherry Dogwood	Full sun to part shade	Rounded upright	Medium	15-20 x 15-20	Yellow flowers precede sour red fruit commonly used in syrups and preserves. Requires a pollinator.
<i>Corylus avellana</i>	Jefferson	European Hazelnut	Full sun	Rounded upright	Medium	15 x 8-10	Produces a heavy yield of edible nuts. Requires a pollinator.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Fruit Trees</b>							
Corylus avellana	Yamhill	European Hazelnut	Full sun	Compact upright	Medium	9 x 11	Produces a heavy yield of edible nuts suitable for use in chocolate and baked goods. Requires a pollinator.
Cydonia oblonga	Kaunching	Quince	Full sun	Upright	Medium	10-15 x 8-10	Pink and white flowers precede lemon-yellow grapefruit-sized fruit that is tender and sweet. Fruit is eaten fresh or used in preserves or baked goods. Self fertile.
Ficus carica	Brown Turkey	Fig	Full sun	Rounded upright	Fast	15-25 x 15-25	Edible purple-brown fruit with pink-amber flesh. Self-fertile.
Ficus carica	Desert King	Fig	Full sun	Upright	Fast	10-20 x 15	Edible deep green fruit with strawberry-red flesh. Two crops per year. Self-fertile.
Ficus carica	Italian Honey	Fig	Full sun	Upright	Fast	15-20	Edible green-skinned fruit has honey-colored flesh. Two crops a year. Self-fertile.
Malus domestica	Golden Sentinel™ Colonnade	Apple	Part sun part shade	Columnar upright	Medium	8-12 x 2	White flowers precede edible golden-yellow fruit similar to Golden Delicious in flavor. Requires a pollinator.
Malus domestica	Northpole	Apple	Full sun	Columnar upright	Medium	8 x 4	White and pink flowers precede bright red edible fruit with the rich taste of McIntosh. Requires a pollinator.
Malus pumila Mill.	Beni Shogun (Paradise Apple)	Fuji Apple	Full sun	Upright	Medium	8-15 x 8-15	On MM.106 EMLA rootstock. Fruit is medium to large, red, juicy, sweet, crisp and flavorful and ripens one month before other Fuji apples. Requires a pollinator.
Morus nigra sp.	Persian Fruiting	Mulberry	Full sun	Spreading upright/prune to hedge	Fast	20-25 x 30	Edible juicy black fruit resembles blackberries and is used in preserves. Self-fertile.
Prunus avium	Lapins	Sweet Cherry	Full sun	Semi-dwarf rounded upright	Medium	15 x 15	White flowers precede dark red "Bing Cherry-like" fruit. Self-fertile.
Prunus avium	Rainier	Sweet Cherry	Full sun	Upright	Medium	15 x 10	White flowers precede flavorful yellow, pink-blushed fruit. Requires a pollinator.
Prunus domestica	Yellow Egg	European Plum	Full sun	Rounded upright	Medium	10-18 x 10-18	Fragrant white flowers precede yellow fruit. Primarily used for canning. Self fertile.
Prunus dulcis	Garden Prince	Almond	Full sun	Dense upright	Medium	10-12 x 8	Pale pink flowers precede a high-yield of sweet soft-shelled almonds. Self-fertile.
Prunus dulcis	Hall's Hardy	Almond	Full sun	Upright	Slow	12-15 x 12-15 (Pruned)	Profuse pink flowers precede nuts. Yields 12 to 15 pounds of nuts at maturity. Self-fertile.
Prunus dulcis	Texas Mission	Almond	Full sun	Upright	Medium	10-15 x 10-15	White flowers precede sweet almonds. A top producing variety. Requires a different cultivar for pollination.
Prunus persica	Frost®	Peach	Full sun	Upright	Fast	12-15 x 12-15	Pink flowers precede yellow freestone fruit that ripens in August and is good for eating fresh or canning. Self fertile.
Prunus salicina	Beauty	Japanese Plum	Full sun	Semi-dwarf upright	Slow	12-15 x 10-15	White flowers precede sweet, flavorful, juicy red fruit. Self-fertile.
Prunus salicina	Howard Miracle	Asian Plum	Full sun	Upright	Fast	10-12 x 10-12	This freestone fruit has a tart orange-pineapple flavor. Requires a pollinator. Will accept pollen from native plums vs. hybrids.
Pyrus communis	Ubileen	European Pear	Full sun	Semi-dwarf upright	Fast	12-15 x 12-15	On OHxF 333 rootstock. White flowers precede yellow, red-blushed fruit. Requires a pollinator.
Pyrus pyrifolia	Arirang	Asian Pear	Full sun	Upright with spreading branches	Fast	15 x 15	White flowers precede edible russet-yellow fruit. This is one of the sweetest types of Asian pear cultivated in the US. Requires a pollinator.
Pyrus pyrifolia	Chojuro	Asian Pear	Full sun	Upright	Fast	12-15 x 12-15	Edible brown to orange russet-skinned fruit with white flesh. Translates to "Plentiful". Requires a pollinator.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Fruit Trees</b>							
Pyrus pyrifolia	Hosui	Asian Pear	Full sun	Upright	Fast	12-15 x 10	Edible yellow-gold to brown, tender, sweet fruit with a brandy aroma. Translates to "Abundant Juice". Requires a pollinator.
Pyrus pyrifolia	Kosui	Asian Pear	Full sun	Upright	Fast	6-12 x 5-10	Edible light green to yellow-golden-bronze, slightly tart, juicy, tender, crisp fruit. Translates to "Juice of Good Fortune". Requires a pollinator.
Ziziphus jujube	Lang	Jujube	Part sun part shade	Upright	Fast	20 x 12	Foliage is glossy green turning yellow in fall. When ripe, edible fruit resembles dates, is 1.5 inches long, pear-shaped, mahogany, and has an apple flavor. Requires a pollinator.
<b>Broadleaf Deciduous Fruit Vines</b>							
Actinidia deliciosa	<i>Female</i>	Fuzzy Kiwifruit	Full sun	Spreading	Medium	30 x 10	Edible kiwi has fuzzy green-brown skin and bright green or gold flesh. Orb-shaped foliage is green. Kiwi is the national fruit of China. Requires a pollinator.
Actinidia deliciosa	<i>Male</i>	Fuzzy Kiwifruit	Full sun	Spreading	Medium	30 x 10	Edible kiwi has fuzzy green-brown skin and bright green or gold flesh. Orb-shaped foliage is green. Kiwi is the national fruit of China. Requires a pollinator.
<b>Broadleaf Deciduous Shrubs</b>							
Berberis thunbergii	Rosy Glow	Japanese Barberry	Full sun	Vase-shaped	Medium	3-6 x 1-3	Spring flowers are red-orange. Rose-red foliage is speckled with white and green. Fall berries are bright red.
Berberis thunbergii Monlers	Golden Nugget™	Dwarf Japanese Barberry	Full sun	Rounded dwarf	Slow	1 x 1.5	Foliage is a vibrant gold-yellow.
Callicarpa americana		Beautyberry	Full sun	Rounded upright	Medium	3-6 x 3-6	Profuse bright purple to magenta berry-like drupes remain through winter.
Calycanthus floridus		Sweetshrub	Full sun to part shade	Dense, broad rounded upright	Medium	3-9 x 6-12	Fragrant wine-red flowers bloom April to May.
Chaenomeles japonica	Cameo	Japanese Flowering Quince	Full sun	Spreading upright	Medium	2-6 x 3-4	Blush-pink flowers precede green foliage.
Circus chinensis	Avondale	Chinese Redbud	Full sun to part shade	Irregular upright	Slow	10-12 x 10-12	Beautiful pink-purple flowers and glossy foliage.
Circus chinensis	Don Egolf	Chinese Redbud	Full sun to part shade	Compact multi-branched	Slow	10-12 x 10-12	This rose-mauve flowered variety is a selection of the U.S. National Arboretum in Washington D.C.
Clerodendrum bungei		Cashmir/Kashmir Bouquet / Rose Glory Bower	Part shade	Vase-shaped upright	Fast	5-7 x 3-4	Very fragrant magenta-pink flowers bloom mid-summer to fall.
Cotinus coggygria	Royal Purple	Smoke Tree	Full sun	Rounded upright	Medium	10-20 x 10-20	Red-purple foliage turns scarlet in fall. Has pink-purple seed clusters.
Enkianthus campanulatus	Red Bells	Enkianthus	Full sun to part shade	Upright	Slow	8-12 x 4-6	Yellow spring flowers are red at the tips. Foliage is deep green turning yellow to orange to scarlet in fall.
Euonymus alatus	Compactus	Dwarf Winged Burning Bush	Full Sun	Vase-shaped dwarf upright	Medium	9-11 x 9-11	Spring flowers are small and yellow-green. Foliage is dark green turning bright pink in fall.
Forsythia x intermedia	Gold Tide	Forsythia	Full sun	Spreading upright	Fast	2 x 4	Bright yellow bell-shaped flowers precede light green foliage.
Forsythia x intermedia	Show Off™ (Mindor)	Forsythia	Full sun to part shade	Rounded upright	Fast	5-6 x 5-6	Bright yellow spring flowers cover this shrub from top to bottom. Foliage is dark green.
Hamamelis x intermedia	Arnold Promise	Witch Hazel	Part sun part shade	Vase-shaped upright	Medium	12-15 x 12-15	Fragrant bright yellow blossoms precede nut-like brown pods on this winter flowering shrub. Foliage is green turning yellow to orange, red and purple in fall.
Hibiscus syriacus	Aphrodite	Althea or Rose of Sharon	Part sun part shade	Upright	Medium	10 x 6	Flowers are pink with deep red throats.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Shrubs</b>							
Hibiscus syriacus	Blue Bird	Althea or Rose of Sharon	Part sun part shade	Upright	Medium	8-10 x 6-10	Flowers are azure-blue with red-purple throats
Hibiscus syriacus	Danica™	Althea or Rose of Sharon	Part sun part shade	Upright	Medium	8-10 x 6-8	Flowers are white with red-pink margins and resemble a white carnation dipped in red ink.
Hibiscus syriacus variegata	Minerva	Althea or Rose of Sharon	Part sun part shade	Upright	Slow	10 x 6	Flowers are lavender with pink overtones and dark red throats.
Hydrangea arborescens	Incrediball®	Smooth Hydrangea	Full sun to part shade	Mounded upright	Medium	4-5 x 4-5	Huge white flowers bloom in summer and make great cut flowers.
Hydrangea macrophylla	Lemon Wave	Lacecap Big-leaf Hydrangea	Full sun to part shade	Sturdy upright	Medium	3-6 x 3-6	Bloom color varies due to soil contents; blue blooms are in acid soils and pink blooms are in alkaline soils.
Hydrangea macrophylla	Parzifal	Mophead Big-leaf Hydrangea	Full sun to part shade	Upright	Medium	3-5 x 5-7	Flowers are red in neutral soil, dark purple-blue in acidic soil, and have serrated sepals.
Hydrangea macrophylla	Pink 'N Pretty® (Monink)	Mophead Big-leaf Hydrangea	Part shade	Sturdy upright	Medium	6 x 5	Bright pink mopheads show well against dark green leaves.
Hydrangea macrophylla	Pistachio	Mophead Big-leaf Hydrangea	Full sun to part shade	Rounded upright	Medium	3-4 x 3-5	This is a mixed color mophead with burgundy sepals, blue eyes, and a touch of light green on the tips. Foliage is bright green.
Hydrangea macrophylla	Zorro	Lacecap Big-leaf Hydrangea	Part shade	Sturdy upright	Medium	4 x 3	A blue lacecap that varies from pink-mauve to deep blue depending on the soil conditions.
Hydrangea macrophylla	Mariesii	Lacecap Big-leaf Hydrangea	Part to full shade	Rounded upright	Medium	5 x 5	A blue lacecap that varies from lilac to pink (in alkaline soil) to blue (in acid soil).
Jasminum nudiflorum		Winter Jasmine	Full sun	Climbing, trained, groundcover	Medium	4-15 x 7	Blossoms are yellow and winter-flowering. Leaves are dark green and trifoliolate.
Lavatera thuringiaca / Lavatera x clementii	Red Rum	Tree Mallow	Full Sun	Rounded upright	Medium	4 x 4	Hollyhock-like flowers from summer to fall. Foliage is dark green.
Rhododendron spp.	Golden Lights	Northern Lights Hybrid Azalea	Part sun part shade	Vase-shaped upright	Slow	4-6 x 3-4	This hybrid has large fragrant multi-colored yellow-gold flowers.
Rhododendron spp.	Rosy Lights	Northern Lights Hybrid Azalea	Part sun part shade	Vase-shaped upright	Slow	4-6 x 3-4	This hybrid has fragrant rose-pink blooms and green foliage that turns purple in fall
Ribes sanguineum	King Edward VII	Red Winter / Flowering Currant	Full sun to part shade	Rounded upright	Slow	3-6 x 3-6	Bright pink-red racemes bloom from mid-Feb. to May. Green foliage turns gold to orange with pink tinges in fall. Green and red berries ripen to dark blue and provide food for wildlife. Although edible, it is not grown for its fruit.
Salix udensis	Sekka	Japanese Fantail Willow	Full sun to part shade	Spreading upright	Fast	8-17 x 10-20	Silver-pink catkins appear in spring. Foliage is narrow and green turning light yellow in fall. The branches flatten and are commonly used in oriental flower arrangements.
Spiraea japonica	Little Princess	Japanese Spirea	Full sun	Compact rounded upright	Medium	3 x 6	Pink to lavender flowers and mint-green foliage. Good for cut flowers.
Spiraea x bumalda	Goldflame	Spirea	Part sun part shade	Rounded upright	Medium	3-4 x 3-4	Rose-red flowers. Bronze-colored new foliage turns yellow-green in summer and copper-orange in fall.
Syringa pubescens subsp. patula	Miss Kim	Korean Lilac	Full sun to part shade	Dwarf upright	Medium to Fast	4-5 x 4-5	A compact variety with very fragrant pale lavender-blue blossoms. Great for a small garden.
Syringa vulgaris	Sensation	Lilac	Full sun	Vase-shaped upright	Medium to Fast	10 x 6	Fragrant purple-red florets are edged in white.
Syringa x hyacinthiflora	Royal Purple	Lilac	Full sun	Vase-shaped upright	Medium to Fast	12-15 x 8-12	Fragrant double dark-purple flowers bloom in May.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Shrubs</b>							
Viburnum opulus	Sterile	Eastern Snowball Viburnum	Full sun to part shade	Upright	Medium	10-12 x 8	Giant showy snowball-like white flowers bloom in summer and make good cut flowers.
Viburnum plicatum f. tomentosum	Mariesii	Doublefile Viburnum	Part sun to part shade	Rounded horizontally-tiered upright	Medium	8-10 x 12-15	An Asian variety, lacecap flowers are white and foliage is bright green turning red-purple in fall. If pollinated, ornamental red berry-like drupes form, maturing to black.
Viburnum plicatum f. tomentosum		Doublefile Viburnum	Part sun to part shade	Rounded upright	Medium	10-15 x 10-15	An Asian variety, lacecap flowers are white and foliage is dark green turning burgundy-red to purple-red in fall. If pollinated, ornamental red berry-like drupes form, maturing to black.
Viburnum x burkwoodii	Mohawk	Viburnum	Full sun to part shade	Rounded upright	Medium	7 x 7	Fragrant pink-white flowers open from pink-red buds. Glossy green foliage turns orange-red in fall. Fruits are red maturing to black.
Weigela florida	Dark Horse	Weigela	Full sun	Compact spreading	Medium	3 x 3	Flowers are deep-pink and tubular. Foliage is bronze with lime green veins.
<b>Broadleaf Deciduous Trees</b>							
Betula	Pendula	European White Birch	Full sun to part shade	Broad upright	Fast	40-50 x 25-30	Known for its white trunk and peeling bark. Foliage is glossy green.
Betula utilis var. jacquemontii		Himalayan Birch	Full sun	Pyramidal upright	Medium	30-45 x 25	Bark is white. Flowers are yellow-brown and green. Foliage is yellow-green to green turning gold in fall.
Cercidiphyllum japonicum	Morioka Pendula	Katsura	Full sun	Rounded upright	Medium	10-20 x 10-20	Foliage is copper in spring, blue-green in summer and gold in fall.
Cercidiphyllum japonicum		Katsura	Full sun	Pyramidal upright	Medium	20-40 x 15-35	Foliage is purple, maturing to blue-green and turning yellow to apricot in fall. Fall leaves emit a spicy, brown sugar scent. On mature trunks, the brown bark is shaggy and peeling. Needs ample water.
Cercidiphyllum japonicum f.	Pendula	Katsura	Full sun	Rounded upright	Medium	32 x 32	Heart-shaped foliage is blue-green turning yellow to orange. Leaves emit a strawberry scent. An unusual landscape specimen.
Circus canadensis		Eastern Redbud	Full sun to part shade	Rounded upright	Medium	15-25 x 10-20	A burgundy trunk, heart-shaped foliage and an umbrella-like crown of pink blossoms make this a beautiful specimen. Native Americans used the bark, roots and flowers for medicinal purposes.
Circus canadensis var. texensis	Oklahoma	Redbud	Full Sun	Rounded upright	Medium	20 x 20	Red-purple flowers precede glossy dark green heart-shaped foliage. Develops seed pods up to four inches long with colors ranging from green to red-brown.
Cornus kousa var. chinensis	Milkyway	Chinese Dogwood	Part sun part shade	Horizontally-layered upright	Medium	15-20 x 15-20	Flowers are pure white. Foliage is dark green turning orange to red in fall. Fruit is orange to red, berry-like and edible, attracting wildlife. Used as an ornamental.
Cornus kousa var. chinensis	Satomi	Chinese Dogwood	Part sun part shade	Horizontally-layered upright	Slow	15 x 12	Flowers are light to deep pink. Foliage is blue-green turning orange to red to purple in fall. Large light to deep pink-colored edible custard-like berries remain on the tree after the leaves have fallen. Attracts wildlife. Used as an ornamental.
Cornus florida x Cornus kousa	Rutban Aurora®	Flowering Dogwood	Full sun to part shade	Dense upright	Fast	14-18 x 14-18	This hybrid has profusely blooming large-bracted white flowers April to May and dark green foliage turning purple in fall.
Corylus avellana	Contorta	European Hazelnut	Full sun to part shade	Rounded upright with twisted branches	Slow	8-10 x 8-10	Has yellow catkins and red flowers. Does not always produce nuts. Green foliage turns yellow in fall. Makes a great specimen tree.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Trees</b>							
Corylus avellana	Royal Red	European Hazelnut	Full sun	Rounded upright with twisted branches	Medium	5-10 x 5-10	This cultivar does not usually produce nuts. It is grown for its spring flowers, mid-green to plum-colored heart-shaped foliage and its beautiful corkscrew branching.
Cornus florida x Cornus kousa	Rutgan Stellar Pink®	Flowering Dogwood	Full sun to part shade	Dense upright	Fast	15-30 x 15-30	This hybrid has profusely blooming large-bracted pink flowers April to May and dark green foliage turning purple-red in fall.
Cornus florida x Cornus nuttallii	Eddie's White Wonder	Flowering Dogwood	Full sun to part shade	Narrow upright with layered branching	Fast	20-40 x 15-30	This hybrid has profusely blooming large-bracted white flowers in spring and dark green foliage turning red to purple in fall.
Crataegus laevigata	Crimson Cloud	English Hawthorn	Full sun	Rounded upright	Medium	10-15 x 10-15	Blooms are crimson with white star-shaped centers. Foliage is dark glossy green. Inedible fruit is red and glossy.
Davidia involucrata		Dove	Full sun to part shade	Rounded upright	Medium	20-40 x 20-40	White flowers bloom April to May. When breezy, the flowers are said to resemble doves. Bright green heart-shaped foliage turns orange to red in fall. Flowers become drupes, when ripe, they become golf ball sized and contain seeds.
Fagus sylvatica	Purple Fountain	European Beech	Full sun	Columnar cascading upright	Slow	12-25 x 15	Foliage is dark purple in spring and fades to a lighter purple in summer. An excellent specimen tree for small gardens.
Fagus sylvatica	Purpurea Tricolor	European Beech	Part sun to part shade	Columnar cascading upright	Medium	30 x 20	Variiegated foliage is purple and pink in spring turning dark bronze-green and pink to white in summer and copper in fall.
Fagus sylvatica	River's Purple	European Beech	Full sun to part shade	Dense oval upright	Medium	40-50 x 20-30	Spring flowers are yellow-green and precede edible beechnuts. If you can find the kernels underneath the husk and outer shells, you are in for a tasty treat. Foliage is large, glossy and deep purple in spring, turning purple-green in summer and copper in fall. This is considered an ornamental variety and not planted for its fruit.
Ginkgo biloba	Golden Globe	Maidenhair	Full Sun	Rounded upright	Fast	30-40 x 20-30	One of the oldest living tree species; the ginkgo is considered a living fossil older than dinosaurs. A male and a female tree are needed for pollination. Ginkgoes are known for their medicinal properties.
Ginkgo biloba		Maidenhair	Full sun to part shade	Broad upright	Medium	50-80 x 30-40	One of the oldest living tree species; the ginkgo is considered a living fossil older than dinosaurs. A male and a female tree are needed for pollination. Ginkgoes are known for their medicinal properties.
Hamamelis x intermedia	Jelena (Copper Beauty)	Witch Hazel	Part sun part shade	Rounded spreading upright	Medium	15-20 x 15-20	This is a hybrid cross of Japanese and Chinese witch hazels. Copper flowers are fragrant and winter-blooming. Foliage is green and turns yellow to orange to red in fall.
Laburnum x watereri	Vossii	Goldenchain	Full sun to part shade	Vase-shaped upright	Slow	8-12 x 8-12	Long showy yellow wisteria-like racemes can measure up to two feet in late spring. Inedible seedpods follow the flowers and ripen in fall.
Lagerstroemia indica	Peppermint Lace	Crape Myrtle	Full sun	Rounded upright branching	Medium	15-20 x 15-20	Blooms profusely throughout summer with deep pink to red flowers with white edges.
Liquidambar styraciflua		American Sweetgum	Full sun	Pyramidal upright	Medium	40-60 x 15-25	Glossy star-shaped foliage turns yellow, orange, red and purple in fall. Fruit is round and thorny. Birds extract the two edible seeds from the fruit. A chewing gum is made from the resin of this tree.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Trees</b>							
Magnolia	Judy Zuk	Magnolia	Full sun	Upright	Medium	7-15 x 5-12	Named after the former president of the Brooklyn Botanical Garden. This hybrid has bright yellow flowers.
Magnolia stellata	Royal Star	Magnolia	Full sun	Open branched multi-trunked upright	Medium	12-15 x 10-12	Fragrant double white flowers appear in spring before the foliage.
Magnolia x Galaxy	Galaxy	Magnolia	Full sun	Pyramidal upright	Medium	30-35 x 15-20	A prolific bloomer, this hybrid has red-purple flowers.
Magnolia x soulangiana	Black Tulip (Jurmag1)	Magnolia	Full sun	Upright	Medium	7-15 x 6-13	Flowers are dark burgundy-pink goblet-shaped and measure six inches when opened.
Magnolia x soulangiana	Brozzonii	Magnolia	Part sun part shade	Vase-shaped upright	Medium	20-30 x 15-20	Fragrant white goblet-shaped flowers with a purple tinge at their base, open in mid to late spring.
Magnolia x soulangiana	Saucer	Magnolia	Part sun part shade	Vase-shaped multi-trunked rounded upright	Slow	20-25 x 20-25	Fragrant cream-pink flowers measure up to eight inches across and bloom in early spring.
Magnolia x vulcan	Vulcan	Magnolia	Full sun	Upright	Medium	15 x 10	This hybrid has showy purple-red flowers that bloom in May.
Malus x Prairifire	Prairifire	Flowering Crabapple	Full sun	Oval-shaped upright	Medium	20 x 15	Fragrant rosy-pink flowers. New foliage is red turning green then orange in fall. Inedible dark red-purple fruit attracts wildlife and remains on the tree through winter. Used as an ornamental.
Malus x Sutyzam	Sugar Tyme®	Flowering Crabapple	Full sun	Upright	Fast	20 x 15	Fragrant white flowers bloom in spring. Glossy edible red fruit ripens in fall and stays through winter. Attracts wildlife. Used as an ornamental.
Morus alba	Pendula	White Mulberry	Full sun	Semi-dwarf upright	Fast	6-10 x 5-10	A semi-dwarf weeping cultivar with glossy dark green foliage that turns yellow in fall.
Paulownia tomentosa		Empress	Full sun	Upright	Fast	40-50 x 30-40	Flowers are purple. Foliage can become quite large (over one foot in diameter).
Populus tremuloides		Quaking Aspen	Full sun	Pyramidal upright	Fast	40-50 x 20-30	This tree has pale smooth bark and glossy green foliage that turns gold in fall.
Prunus cerasifera	Hollywood	Cherry Plum	Full sun	Broad upright	Slow	30 x 20	White to pink flowers and dark green foliage with purple undersides. A showy specimen tree.
Prunus cerasifera	Thundercloud	Cherry Flowering Plum	Full sun	Spreading upright	Fast	15-20 x 15-20	Light pink blossoms with dark pink eyes and red foliage. Suitable to small gardens. Self-fertile. Not a dependable fruit producer.
Prunus mume	Matsubara Red	Japanese Flowering Apricot	Full sun	Upright	Medium	15-30 x 15-30	Dark red flowers and a spicy clove scent. Fruit is inedible.
Prunus persica sp.	Double Red Weeping	Flowering Peach	Full sun	Arching weeping upright	Slow	20 x 20	This weeping tree has double purple-red flowers that bloom in early spring. Fruit is inedible.
Prunus serrulata	Kwanzan	Oriental Flowering Cherry	Full sun	Vase-shaped spreading upright	Medium	20-25 x 20-25	Double pink flowers precede shiny red-brown or bronze new foliage that turns glossy dark green above and pale green below in summer then gold-bronze to subdued red in fall.
Prunus serrulata	Royal Burgundy	Oriental Flowering Cherry	Full sun	Vase-shaped upright	Medium	15-30 x 15-30	Flowers are dark pink on red stems. Summer foliage is purple, turning orange-red in fall.
Prunus serrulata	Shogetsu	Oriental Flowering Cherry	Full sun	Upright with arching branches	Medium	15 x 18	Double pale-pink white-throated flowers hang in weeping clusters on this small tree.
Prunus subhirtella	Autumnalis	Higan Flowering Cherry	Full sun to part shade	Rounded multi-trunked upright	Medium	25-30 x 25-30	Covered in semi-double pink flowers in spring. Can bloom a second time in fall.
Prunus subhirtella	Pendula	Higan Flowering Cherry	Full sun	Weeping upright	Medium	8-12 x 8-12	Single pink flowers in spring and dark green foliage that turns orange in fall.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Trees</b>							
Prunus x Snowfozam	Snow Fountains®	Higan Flowering Cherry	Full sun	Weeping upright	Medium	10-12 x 10-12	Snow-white flowers cascade all the way to the ground. Green foliage turns gold and orange in fall. A beautiful specimen tree for a small garden.
Prunus x yedoensis	Akebono	Yoshino Flowering Cherry	Full sun	Rounded spreading	Medium	25 x 25	This hybrid has soft, fragrant, pink double flowers in spring and dark glossy green leaves turning yellow in fall.
Prunus x yedoensis		Yoshino Flowering Cherry	Full sun	Rounded upright	Fast	35-40 x 35-40	Showy, fragrant, soft white to pale pink flowers in spring and dark green leaves that turn yellow and bronze in fall. Inedible black cherries attract wildlife.
Pyrus calleryana	Cleveland Select	Callery Flowering Pear	Full sun	Columnar upright	Medium	25-30 x 15-20	Snowy white flowers in spring and green foliage that turns shades of orange, red and purple in fall.
Quercus palustris		Pin Oak	Full sun	Broad pyramidal-crowned upright	Fast	59-72 x 26-46	Yellow-green flowers in spring precede acorns. Glossy dark green foliage turns red in fall. Bark is gray-brown and becomes ridged with age.
Salix alba	Tristis	Niobe Golden Weeping Willow	Full sun	Open rounded weeping upright	Fast	50-75 x 50-75	Foliage is bright chartreuse turning yellow in fall. The pendulous branches reach the ground. The bark is corky. This tree requires a lot of space and water.
Salix integra	Hakura Nishiki	Dappled Willow	Full sun to part shade	Upright shrub / prune to maintain size	Fast	15-20 x 6-10	Foliage is pink in spring turning dappled cream and green through summer and yellow in fall. Stems turn red in winter.
Salix matsudana	Tortuosa	Corkscrew Willow	Full sun	Oval-shaped multi-stemmed upright	Fast	15-35 x 10-30	Foliage is dark bronze in spring turning green in summer and yellow in fall. Branches are spiraled and commonly used in floral arrangements.
Sorbus aucuparia		Common Mountain Ash	Full sun	Rounded upright	Medium	20-40 x 8-20	Showy white flower clusters precede dark green foliage and orange-red pomes (berry-like fruit clusters). Attracts wildlife.
Stewartia monadelpha		Orange-bark	Part sun part shade	Vase-shaped upright	Slow	25-30 x 10-15	Small 1.5 inch cupped white flowers with yellow centers precede green foliage that turns orange, red and purple in fall.
Stewartia pseudocamellia	Japonica	Japanese Stewartia	Full sun to part shade	Multi-branched pyramidal upright	Medium	15-30 x 20-25	White flowers with orange centers precede green foliage that turns bronze-purple in fall.
Ulmus glabra	Camperdownii	Elm	Full sun to part shade	Rounded weeping upright	Fast	15-20 x 15-20	This tree has an umbrella-like crown with pendulous branches hanging to the ground. Creamy-green flowers precede green foliage that turns yellow in fall. A beautiful specimen tree for the small yard.
Zanthoxylum piperitum	Sansho	Japanese Pepper	Part sun part shade	Rounded upright	Medium	10-15 x 6	Seeds, leaves and fruit are used in Asian cuisine. Requires a pollinator for seed.
<b>Broadleaf Deciduous Vines</b>							
Lonicera japonica	Halliana / Hall's	Japanese Honeysuckle	Full sun	Twining, requires support, groundcover	Fast	15-30 x 3-6	This fragrant vine has green foliage and white blossoms that turn yellow. Attracts wildlife.
Parthenocissus quinquefolia		Virginia Creeper	Full sun to part shade	Self-clinging vine, groundcover	Fast	30-60 x 5-10	This vine has small green-white flowers that precede inedible blue to black berries. Foliage starts out purple, turns a dull green in summer and then red to purple in fall.
Wisteria floribunda	Longissima Alba	Japanese Wisteria	Full sun to part shade	Use on arbor, fence or trellis - spreading	Fast	30 x 2	This beautiful vine has long racemes of fragrant white blossoms. Wisteria requires strong support.
Wisteria floribunda	Longissima Kyushaku	Japanese Wisteria	Full sun to part shade	Use on arbor, fence or trellis - spreading	Fast	30 x 2	Purple flowers are up to six feet long. This is likely the longest flower cluster of the wisterias. Wisteria requires strong support.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Deciduous Vines</b>							
Wisteria sinensis		Chinese Wisteria	Full sun to part shade	Use on arbor, fence or trellis - spreading	Fast	25	This vine has fragrant violet-blue racemes and chartreuse foliage. Wisteria requires strong support.
<b>Broadleaf Evergreen Shrubs</b>							
Buxus microphylla	Faulkner	Boxwood	Part sun part shade	Compact upright hedge plant	Slow	4-6 x 3	Glossy emerald green foliage turns bronze-green in fall.
Buxus x Green Mountain	Green Mountain	Boxwood	Full sun to part shade	Upright hedge-like	Medium	5 x 3	Foliage is green with yellow margins.
Ceanothus impressus	Victoria	California Wild Lilac	Full sun	Upright, train	Fast	Varies	Deep blue flowers bloom multiple times starting in summer. Foliage is a glossy green.
Choisya ternata		Mexican Orange Blossom	Full sun to part shade	Rounded	Medium	6-8 x 6-8	Fragrant white flowers bloom from April to August against glossy bright green foliage.
Daphne odora	Aureomarginata	Winter Daphne	Part sun part shade	Hedge-like	Slow	4 x 6	Fragrant pink flowers bloom in winter. Foliage is dark green with yellow margins.
Gaultheria procumbens		Wintergreen Teaberry	Part to full shade	Groundcover	Medium	6"-1' x 1-3	Flowers are pink, berries are red and foliage is dark green.
Ilex crenata	Dwarf Pagoda	Japanese Holly	Part sun part shade	Dwarf upright	Very Slow	2-3 x 2-3	Foliage is dark, glossy and green. This plant grows 20-inches in 10 years. A natural Bonsai.
Ilex crenata	Mariesii	Japanese Holly	Part sun part shade	Dwarf irregular upright	Very Slow	2-4 x 1-2	Foliage is small, glossy and green. Requires a male plant to pollinate and produce black berries. This is a natural Bonsai.
Ilex crenata	Sky Pencil	Japanese Holly	Full sun	Columnar, compact, narrow upright	Slow	6-8 x 2-3	Foliage is dark green and berries are purple in fall. Prune to maintain small columnar shape.
Lavandula angustifolia	Munstead Strain	English Lavender	Full sun	Bushy upright	Medium	1-2 x 1-2	Foliage is fragrant and silver-blue. Lavender flowers are on spikes.
Lavandula stoechas		Spanish Lavender	Full sun	Rounded plant with flower spikes	Medium	1-3 x 1-3	Foliage is silver-blue. Flowers are dark purple with lighter purple bracts on top.
Rhododendron	Cherry Cheesecake	Rhododendron	Part sun part shade	Rounded upright	Medium	4-5 x 4-5	Flowers are large, snow-white, have a red flare and pink margins.
Rhododendron	Fantastica	Rhododendron	Part sun part shade	Rounded upright	Slow to Medium	6 x 6	Flowers are deep pink at the margin fading to white at the center.
Rhododendron	Impeditum	Rhododendron	Part sun	Compact dwarf	Slow to Medium	1 x 1.5	Flowers are small and broadly funnel-shaped, ranging in color from rose-lavender to violet to purple.
Rhododendron	Looking Glass	Rhododendron	Part sun part shade	Upright shrub	Medium	5 x 4	Pink flowers are funnel-shaped with frilly margins and purple-red centers.
Rhododendron	Pearce's American Beauty	Rhododendron	Part sun part shade	Upright shrub	Medium	5-6 x 4-5	Flowers bloom early to mid June, are deep pink-red, and have an orange flare.
Rhododendron	Purple Splendor	Rhododendron	Part sun part shade	Rounded	Medium	4-5 x 4-5	Flowers measure 2.5 inches across, are fragrant, bright purple, and have a red flare.
Rhododendron	Taurus	Rhododendron	Part sun part shade	Rounded shrub	Medium	5-6 x 5-6	Funnel-shaped flowers are red, measure 3.5 inches across and have black spotting.
Rhododendron	Winter Spice	Rhododendron	Part sun part shade	Upright shrub	Medium	5 x 5	Flowers are soft pink to white with a double red flare.
Rhododendron spp.	Girard's Pleasant White	Girard Hybrid Azalea	Part sun	Compact	Medium	4 x 5	White flowers measure 1.5 to 3 inches in diameter and have a light scent.
Rhododendron spp.	Hino Crimson	Kurume Hybrid Azalea	Full shade to part sun	Rounded	Slow	2-3 x 2-3	Flowers are crimson and bloom throughout spring.
Rhododendron spp.	Hino White	Shammarello Hybrid Azalea	Part sun to part shade	Spreading	Medium	1-3 x 2-6	Flowers are white and measure up to 2 inches across.
Rhododendron Yakushmanum	Percy Wiseman	Rhododendron	Part sun part shade	Compact	Medium	3 x 4	Flowers range in color from cream to pink to peach and have a yellow center.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Broadleaf Evergreen Shrubs</b>							
Sarcococca hookeriana var. humilis SarSid 1	Fragrant Valley™	Himalayan Sweet Box	Part to full shade	Compact low spreading	Slow	1.5 x 3-4	Flowers are fragrant and white. Foliage is a dark glossy green.
Sarcococca ruscifolia		Fragrant Sweet Box	Full shade	Rounded hedge-like	Slow	3-5 x 3-5	Flowers are fragrant, white, and winter-blooming. Berries are dark red and appear in summer. Foliage is glossy and dark green.
Sarcococca x confusa		Confused Sweet Box	Part to full shade	Upright hedge-like with arching branches	Slow	4-6 x 4-7	Small fragrant white flowers are followed by black fruit.
Skimmia japonica	Female	Japanese Skimmia	Full shade	Rounded	Slow	2-5 x 3-6	Fragrant white flowers in late winter and bright red berry clusters in late fall. Requires a male plant to produce berries.
<b>Broadleaf Evergreen Trees</b>							
Magnolia grandiflora	D.D. Blanchard	Southern Magnolia	Full sun	Pyramidal upright	Fast	50 x 25-35	Large flowers can measure up to 8 inches in diameter and are creamy-white and fragrant. Foliage is a dark glossy green with a rust-brown underside.
Magnolia grandiflora	Saint Mary	Southern Magnolia	Full sun	Pyramidal upright	Slow to Medium	20-25 x 20-25	Flowers are large and white, blooming in summer and again in fall. Foliage is a dark glossy green.
<b>Broadleaf Evergreen Vines</b>							
Hydrangea integrifolia		Climbing Hydrangea	Full sun to part shade	Clinging vine	Medium	60 x 30	Foliage is deep green with bronze-colored new growth. Blooms are white and resemble lacecaps. Flowers can bloom in shade.
<b>Coniferous Deciduous Trees</b>							
Larix decidua	Pendula	European Larch	Full sun	Weeping/Train for upright	Medium	10 x 4	Needles are lime-green in summer and turn gold in fall before dropping off.
Larix decidua	Varied Directions	European Larch	Full sun	Spreading and Weeping - Train for upright	Fast	5-10 x 6	Branches grow up and out in varied directions, eventually cascading down to the ground. Needles are bright green, turning gold in fall before dropping off.
Larix Kaempferi	Diana	Contorted Japanese Larch	Full sun	Pyramidal upright with contorted branching	Medium	20-25 x 10-13	Needles are blue-green and turn gold in fall before dropping off.
Taxodium distichum	Peve Minaret	Dwarf Bald Cypress	Part sun part shade	Compact dwarf upright	Slow	6 x 2-3 @ 10 Years	Needles are rich green turning gold to orange to red-brown in fall before dropping off.
<b>Coniferous Evergreen Shrubs</b>							
Abies koreana	Golden Glow	Korean Fir	Part sun part shade	Irregular spreading dwarf	Medium	2 x 3	Short wide needles glow light yellow on one side and white on the reverse. Late winter buds are purple.
Cedrus deodara	Prostrate Beauty	Deodar Cedar	Part sun part shade	Groundcover/Low spreading	Fast	5 x 10	Needles are blue-green.
Cedrus libani	Home Park	Dwarf Spreading Lebanon Cedar / Stake for upright	Full sun	Spreading dwarf	Slow	4 x 4	Needles are vibrant green.
Chamaecyparis obtusa	Nana	Dwarf Hinoki Cypress	Full sun	Rounded dwarf	Slow	3-6 x 2-4	Dark green lace-like foliage curves and twists in different directions creating movement.
Chamaecyparis pisifera	Golden Mop	Dwarf Hinoki Cypress	Part sun part shade	Mounding dwarf	Slow	3 x 4	Resembling a mop head, this plant has golden yellow thread-leaf branches and keeps its color throughout the year.
Chamaecyparis pisifera	Snow	Dwarf Hinoki Cypress	Part sun to part shade	Dwarf pyramidal upright	Slow	5-6 x 5-6	Foliage is blue-green with white tips held in dense sprays.
Picea abies	Little Gem	Dwarf Norway Spruce	Full sun	Rounded dwarf	Slow	2 x 6	Needles are lime-green in spring.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Coniferous Evergreen Shrubs</b>							
Picea abies	Pusch	Dwarf Norway Spruce	Part sun part shade	Rounded dwarf	Slow	2-5 x 2-5	Profuse red cones in spring are showy against green needles. Cones turn brown with age but remain on the bush all year.
Picea pungens	Mrs. Cesarini	Dwarf Blue Spruce	Full sun	Flattened mounding dwarf	Slow	2-4 x 1-4	Needles are shiny and bright green. Light-green buds emerge on branch tips in spring.
Pinus densiflora	Pendula	Japanese Red Pine	Full sun	Groundcover/Train for upright	Fast	3-5 x 3-5	Needles are long and dark green. Branch tips are white-gray in spring.
Pinus mugo	Carsten's Wintergold	Mugo Pine	Full sun	Dwarf upright	Slow	1-2 x 1-2	Needles emerge short and bright green in spring turning a fluorescent yellow-gold in winter.
Pinus mugo	Sherwood Compact	Mugo Pine	Full sun	Compact	Slow	1-3 x 1-3	Needles are glossy and green with golden tips in winter.
Pinus mugo	Winter Gold	Mugo Pine	Full sun	Dwarf	Slow	2-4 x 2-3	Needles emerge yellow, turning light green-gold. Branch tips are blue.
Pinus parviflora	Catherine Elizabeth	Japanese White Pine	Full sun	Rounded dwarf	Slow	2 x 3 @ 10 Years	Needles are short and light blue-green.
Pinus parviflora	Hagoromo	Japanese White Pine	Full sun	Irregular upright	Slow	1 x 2 @ 10 Years	Needles are tiny and blue-green.
<b>Coniferous Evergreen Trees</b>							
Abies alba	Green Spiral	European Silver Fir	Full sun	Compact spiraling upright / Stake	Medium	12 x 4 @ 10 years	Needles are glossy and dark green.
Abies alba	Pendula	European Silver Fir	Full sun	Compact spiraling upright / Stake	Medium	12 x 4 @ 10 years	Needles are soft green with silver undersides.
Abies koreana	Horstmann's Silberlocke	Korean Fir	Full sun	Pyramidal upright	Slow	20-30 x 10-18	Needles are deep green on one side with silver-white on the reverse. Numerous showy cones are held upright on branches.
Cedrus atlantica	Glauca Pendula	Atlas Cedar	Full sun	Weeping, twisted, spreading branches / Train	Slow	20-30 x 20-30	Needles are short, silver-blue and grow in bundles. Cones are held upright on branches.
Cedrus deodara	Blue Snake	Himalayan Cedar	Part sun part shade	Narrow upright with serpentine branching / Stake	Medium	5-15 x 1-3	Needles are blue-green.
Cedrus libani	Glauca Pendula	Lebanon Cedar	Full sun	Narrow weeping upright	Medium	10-15 x 6-10	Needles are long, stiff and dark green. Cones are barrel-shaped.
Cedrus libani	Pendula	Lebanon Cedar	Full sun	Weeping columnar upright	Medium	16 x 32	Needles are green-blue.
Chamaecyparis nootkatensis	Pendula	Alaska Cedar	Full sun	Pyramidal upright	Medium	35-50 x 15-20	Needles are light to medium green.
Chamaecyparis obtusa	Spiralis	Dwarf Hinoki Cypress	Part sun part shade	Semi-dwarf columnar spiraling upright	Slow	6-12 x 4-10	Needles emerge lime-green in spring and mature to dark green.
Chamaecyparis pisifera	Cyano-viridis	Boulevard False Cypress	Full sun	Pyramidal upright	Medium	12-15 x 8-10	Needles are silver-blue-green.
Cryptomeria japonica	Elegans Compacta	Japanese Cedar	Part sun part shade	Mounding	Fast	6 x 6	Needles are blue-green with copper-purple winter color. Branches are red-brown. Cones are spherical.
Picea abies	Cobra	Norway Spruce	Full sun	Stake leader for columnar upright	Medium	25 x 10	A leader branch can be staked for height. Branches are pendulous and pool around the tree creating a skirt. Needles are green. A unique specimen.
Picea abies	Pendula	Norway Spruce	Part sun part shade	Weeping/Train for upright	Slow to Medium	3 x 10	Needles are short, dark green and fragrant.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Coniferous Evergreen Trees</b>							
Picea glauca	Conica	Dwarf Alberta Spruce	Full sun to part shade	Pyramidal upright	Slow	6-8 x 4-5	Needles are short and green.
Picea omorika	Pendula Brun	Serbian Spruce	Full sun	Narrow weeping upright	Slow	30 x 6	Needles emerge light green and mature to dark green-blue with silver undersides.
Picea orientalis	Nutans	Oriental Spruce	Part sun part shade	Weeping/Nodding upright	Slow	5-10 x 3-6	Needles are bright yellow-green.
Picea orientalis	Skyland's	Oriental Spruce	Full sun	Pyramidal upright	Slow	10-30 x 4-12	Needles are spiky and emerge bright yellow in spring maturing to gold. Inner foliage is dark green, providing a nice contrast.
Picea pungens	Baby Blue Eyes	Colorado Blue Spruce	Full sun to part shade	Compact pyramidal upright	Slow	15-30 x 15-30	Needles are silver-blue-green.
Picea pungens	Fat Albert	Colorado Blue Spruce	Full sun	Broad upright	Slow	10-15 x 7-10	Needles are blue.
Picea pungens	Hoopsii	Colorado Blue Spruce	Full sun	Pyramidal upright	Slow	15-30 x 5-12	Needles are silver-blue.
Pinus bungeana		Lacebark Pine	Full sun	Multi-trunked upright	Slow	30-50 x 12-20	Needles are 2 to 4 inches long, green and fragrant. Round cones are 2 to 3 inches wide and light brown. The bark peels off leaving a lime-green color.
Pinus contorta	Chief Joseph	Dwarf Lodgepole Pine	Full sun	Semi-dwarf upright	Slow	6-8 x 4-5	Needles are light to medium green turning golden-yellow in winter.
Pinus densiflora	Globosa	Japanese Red Pine	Part sun part shade	Rounded upright	Slow	50-80 x 15-20	Needles are twisted, short, dark green and in bundles of two. The bark is red. Tiny cones emerge near branch tips.
Pinus parviflora	Aoi	Japanese White Pine	Full sun	Compact pyramidal upright	Slow	20 x 15	Needles are small, silver-blue on one side and green on the reverse. There are numerous cones in spring.
Pinus parviflora	Goldilocks	Japanese White Pine	Full sun	Upright	Slow	5-8 x 4-6	Needles are green with yellow overtones.
Pinus parviflora	Kokonoe	Dwarf Japanese White Pine	Full sun	Dense bushy upright	Slow	4-8 x 3-7	Needles are dark blue green and in bundles of five. Oval cones are brown and emerge in fall.
Pinus strobus	Louie	Eastern White Pine	Full sun	Upright	Medium	75-100+	Needles are long, thin and bright yellow against green interior foliage.
Pinus strobus	Pendula	Eastern White Pine	Full sun	Upright/Train a leader branch	Medium	6-15 x 10-12	Needles are long and blue-green. Slender cones are brown. Branches reach the ground and continue spreading as a groundcover.
Pinus thunbergii	Kotobuki	Japanese Black Pine	Full sun	Narrow upright semi-dwarf	Slow	10 x 6	Needles are small and dark green. Upright branch tips are white.
Pinus thunbergii	Shun Sho Matsu	Dwarf Japanese Black Pine	Part sun part shade	Narrow thick and stubby upright semi-dwarf	Slow	8 x 3	Needles are short, dark green and in bundles of two. Buds are white-brown.
Pinus wallichiana	Zebrina	Himalayan Pine	Full sun	Broad pyramidal upright	Slow	15-20 x 8-10	Needles are variegated blue and green. Each needle has a band of yellow on it. Variegation stands out in winter.
Sciadopitys verticillata	Sternschnuppe (Shooting Star)	Japanese Umbrella Pine	Part sun part shade	Narrow semi-dwarf upright	Medium	3-8 x 1	Needles are thick and green. Branch tips are yellow.
Sciadopitys verticillata		Japanese Umbrella Pine	Part sun part shade	Pyramidal upright	Slow	25-40 x 15-20	Needles are glossy and dark green.
Sequoiadendron giganteum	Glaucum	Giant Sequoia	Full sun	Narrow pyramidal upright	Medium	50-100+ x 20-40	Needles are blue-green.
Sequoiadendron giganteum	Pendula	Giant Sequoia	Full sun	Narrow weeping upright	Slow	25 x 3-4	Needles are green.
Taxus baccata	Fastigiata	Irish Yew	Part sun part shade	Dense upright	Medium	6-20 x 2-5	Needles are dark green on upright branches. Inedible red berries ripen in fall.

Species	Name	Common Name	Exposure	Habit	Rate	H x W	Description
<b>Coniferous Evergreen Trees</b>							
Tsuga canadensis	Sargent's Pendula	Hemlock	Part sun part shade	Spreading multi-layered upright/Train	Slow	2-5 x 3-8	Needles are short and dark green. Branch tips are yellow-green.
<b>Evergreen Palm Trees</b>							
Cordyline australis	Cherry Sensation	False Dracaena Palm	Full sun to part shade	Rounded vase-shaped upright	Medium	4-6 x 4-6	White flowers are followed by white or blue tinted berries (at maturity).
Trachycarpus fortunei		Chinese Windmill Palm	Part sun part shade	Upright	Slow	10-20 x 12	Trunks are covered with mats of brown to gray fiber. Leaves are green.
